

#### Ch.4 代數及簡易方程

#### Ch.4 Simple Equations ANSWER

1(a)  $2x$                       1(b)  $x + 5$                       1(c)  $\frac{x}{4}$

1(d)  $x - 5$                       1(e)  $p + 2$                       1(f)  $\frac{k}{5}$

1(g)  $\frac{b}{2}$                       1(h)  $700 - z$

1(i)  $7y, 30 - 7y$                       1(j)  $2y - 1$

1(k)  $x + 25$                       1(l)  $50 - y$                       1(m)  $3.5m$

1(n)  $21 + n$                       1(o)  $3m - 6$

2(a)  $3$                       2(b)  $5$                       2(c)  $6$

2(d)  $7$                       2(e)  $5$                       2(f)  $18$

2(g)  $7$                       2(h)  $-13$                       2(i)  $14$

2(j)  $2$                       2(k)  $30$                       2(l)  $40$
